

# DashT – An OpenCPN Plug-In

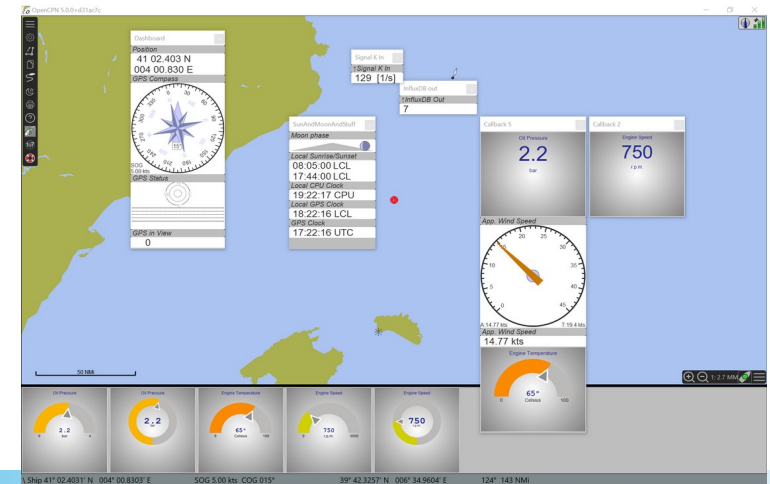

v2

EngineDJG Dial  
for  
Engine and Energy Data

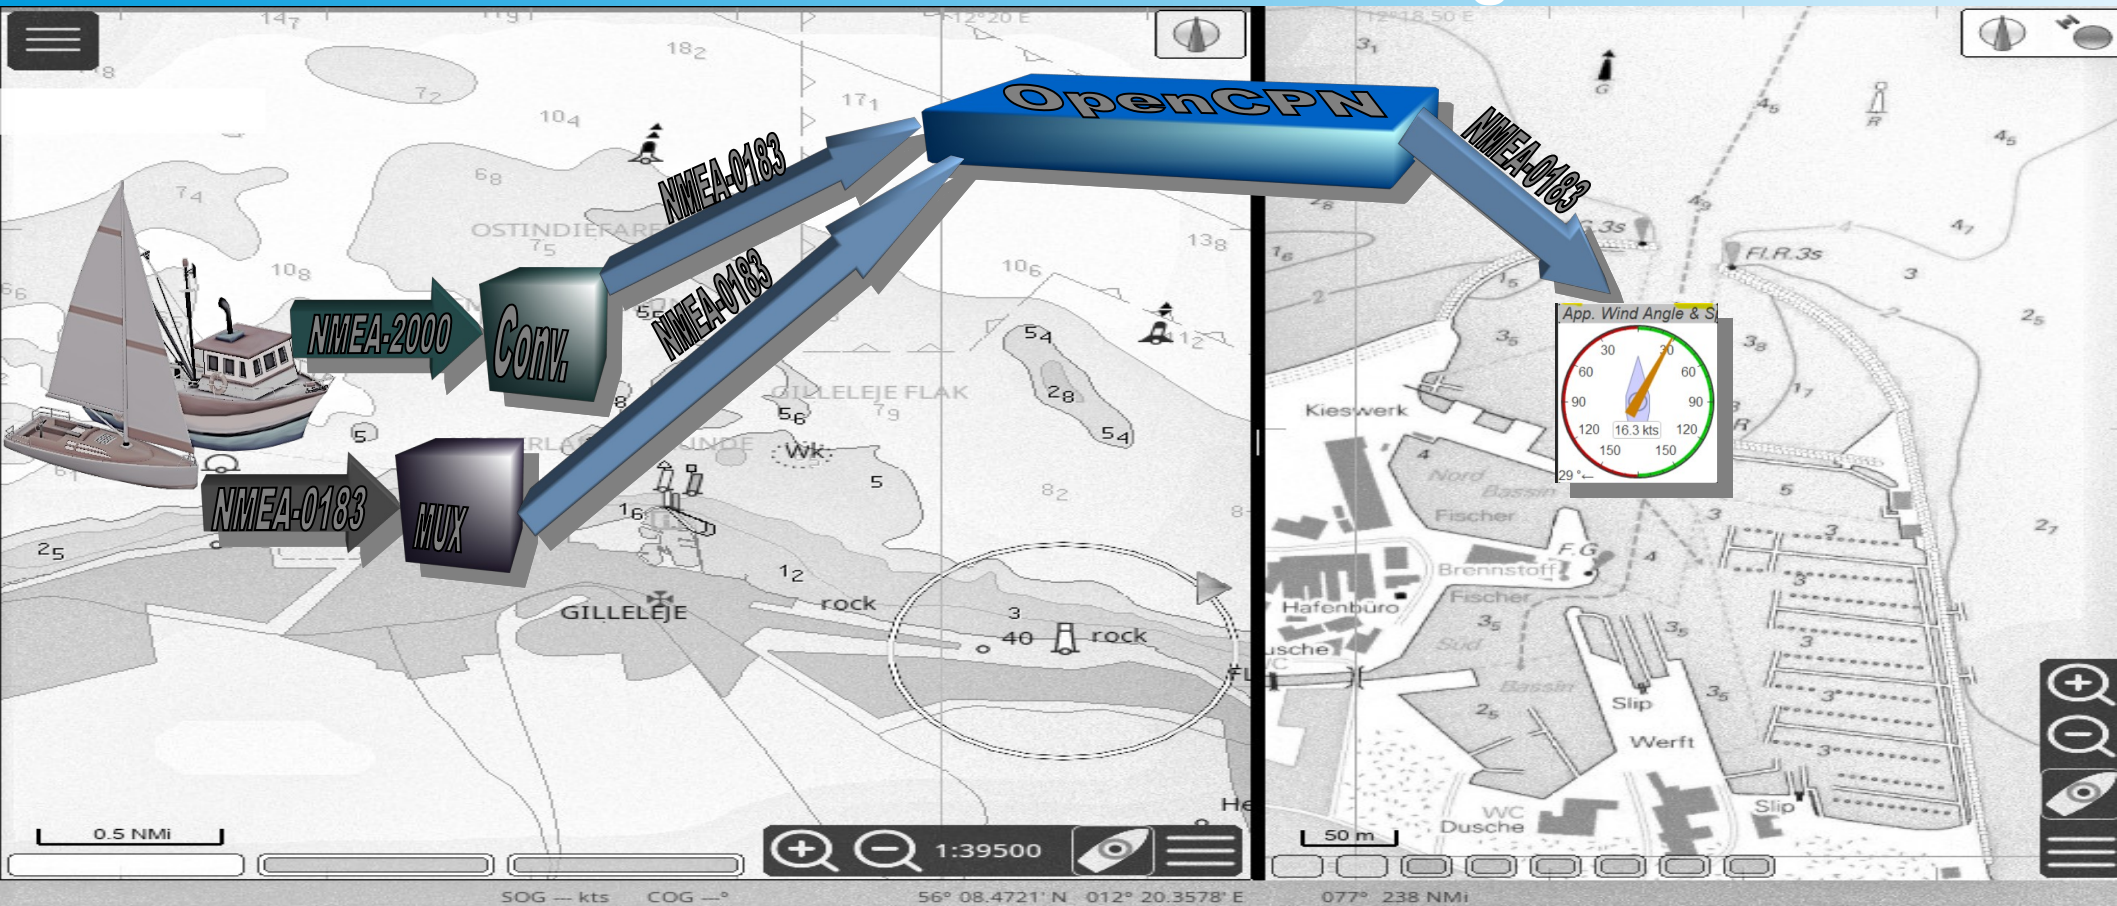

A decorative blue wavy bar at the bottom of the slide, consisting of two overlapping curved shapes in different shades of blue.

# What it is

- Modern web techniques embedded in **OpenCPN Dashboard**
- A dedicated instrument for Engine and Energy data in Signal K data format
- Gets data from DashT by a subscription
- Data obtained from a single Signal K node server interconnection
  - Allowing multiplication *ad infinitum*
  - Instrument is not making data connections
  - Does not interfere with NMEA-0183 data push
- HTML5 and JavaScript based
  - Plain text customization files provided
  - Loading from a local or from a remote host
